Alternate Contact: _____ Ph. #: _____ Cell Landline

COMMENTS:

I, being responsible for the above-described animal, have the authority to grant the veterinarian, the Canadian Animal Task Force (CATF) and their representatives, my consent to receive, treat, and/or to operate upon the described animal. I understand that while all procedures are to be done to the best abilities of the staff and volunteers, no assurance or guarantee has been made of the results of any surgery or treatment and that risks and probabilities of complications exist in any surgical or medical treatment. My animal may not have a designated anesthetist during surgery and the risk of complication or death is greater. I consent to the administration of anesthetics and/or other medication as may be deemed proper by the veterinarian.

My personal information will be used to help reunite my animal should they go missing. If my animal becomes impounded or taken in as a stray by an animal control facility, humane society, or rescue group, I authorize the CATF to claim or redeem my animal if I cannot be contacted and at their discretion. Every effort will be made to reunite the animal with the owner. I agree to CATF releasing my personal information to a finder should my animal be lost.

The information I provided will be used to assess the impact of CATF programs in my community.

I AM AT LEAST 18 YEARS OF AGE AND AFTER CAREFULLY READING THE ABOVE, I HAVE SIGNED IN AGREEMENT.

Table S1. Average growth characteristics^a of different breed categories^b as described by literature (20,21).

Breed Category	a (kg)	x₀ (weeks)	b (%)
X-Large^c	43.30	18.50	16.70
Large	27.88	22.00	11.93
Medium	16.84	16.43	15.20
Small	10.33	16.50	14.40
X-Small	2.34	13.77	14.61

^a Where a= adult body weight, x₀= time it takes to reach half of the adult body weight, and b= growth rate

^b As defined by the American Kennel Club (23)

^c Only used equation (20) for Newfoundland breed to account for general lower body weight of x-large breed dogs in Canadian Animal Task Force clinics from 2008-2019

Table S2: Average adult weight, in kilograms, as described by the American Kennel Club (23) of all dogs, dogs in Canadian Animal Task Force dataset, and dogs in logistic growth curves (20,21). Confidence intervals represent 95% confidence using \pm standard deviation.

Breed Category	All dogs (kg)	CATF dogs (kg)	Logistic growth curve dogs (kg)
X-Large	56.58 +/- 5.51	59.05 +/- 6.91	56.70 ^a
Large	33.75 +/- 2.51	31.35 +/- 4.15	31.18 +/- 1.43
Medium	19.29 +/- 1.30	19.32 +/- 2.79	22.11 +/- 3.33
Small	8.28 +/- 0.66	8.14 +/- 1.10	8.85 +/- 1.82
X-Small	3.34 +/- 0.55	3.38 +/- 0.50	2.95 +/- 0.68

^a Only one breed (Newfoundland) represented
